His remarks on this subject had a patriotic ring. The solid character of the national credit was a theme which inspired him to eloquence, and the prosperity which awaits the nation when Congress has performed its duty, afforded him opportunity for a well rounded peroration. Mr. Voorhees in the course of his speech gave some expointing out that a restoration of silver to its proper place in our money system would eventually be the best thing even for them.

The new law creating the children's board of guardians for the District has not been in operation long enough to fully demonstrate the truth of all that was claimed for it when it was proposed, but the experience of a few months has been most satisfactory.

The board reports that there is now no occasion for the courts to send a single child properly chargeable upon the District to any private charitable institution for care or support. The government has established an agency of its own, competent to care for every such child, and as a matter of fact, since the courts have had the authority they have thrown the whole bur- Midway Plaisance. den of the support of such children upon friendly relations with all the institutions much accent on the "sound." with which it has come in contact. It has offered to co-operate with them all, and it now asks that the whole appropriation for the support of the dependent children chargeable to the District be made to it, that its resources may be commensurate with the responsibilities.

The system promoted by the board of placing children in homes is advocated as securing the best results not only in the 'em." training of the children, but in the reduc-tion of the number of dependent children. The board will begin a new year with its organization perfected and well prepared to get the best results out of the money that may be granted for an object which appeals so strongly to every good and philanthropic heart.

In other words a premium is offered to taxpayers to settle thought of the numerous dead-heads; "I that no one who could command the money patronized." would care to lose it. The result, if both Mr. Trimble's recommendations were approved by Congress, would probably be that instead of a general deferment of payto pay in November. Unless the District wife; "in your check book." were in great need of funds there would be no reason for offering such an inducement for the payment of the taxes in November. If the discount is to be made on the score that the taxes are too high it should be applied to payments made at any time.

The advertised "hunger parade" in Newark yesterday did not make a great show of suffering. The most miserable thing about it was the parade itself, the four thousand who it was said would take part having dwindled down to 300. The mayor of the city halted the line and took away the two black flags carried. He said they would have to march, if they marched in Newark, under the stars and stripes or nothing at all. So the flagless procession went tamely on; the anarchistic dog, so to speak, curied its tail under its legs.
